### Settlement Reached with Asbury Environmental Services

LOS ANGELES - The California Department of Toxic Substances Control (DTSC) today announced a settlement with Asbury Environmental Services, Inc. (Asbury) which resolves hazardous waste violations which were revealed during a DTSC inspection at the 2100 North Alameda Street facility in Compton, California.

Under the terms of the Consent Order (Order), signed on May 30, 2006, Asbury will pay a total penalty of \$8,000 to DTSC. A copy of the Order is available on DTSC's website.

During an inspection of the facility on September 3, 2004, DTSC inspectors determined that during the period of April-May 2003, Asbury transferred hazardous waste from drums to an Asbury truck without proper authorization.
